

Procurement – SOP

Procure-to-Pay (P2P) Standard Operating Procurement in QBS System

Target System	QBS (Procurement & Inventory Suite)	Effective Date	Sep 2026
Organization	Q1 0Analytics	Review Cycle	Annual / Quarterly Audit
Process Owner	Head of Procurement	Approver	Executive Management / CFO

1. OVERVIEW & PURPOSE

This SOP outlines the end-to-end Procure-to-Pay (P2P) workflow for **Q1 0Analytics** using the **QBS System**. Adherence to this process ensures structured purchasing, budget discipline, quality-controlled receiving, and seamless vendor payments.

2. PROCESS ARCHITECTURE & WORKFLOW MAP

The entire procurement lifecycle in QBS is divided into two primary operational arms: **Procure** (Requisitions to Supplier Selection) and **Accounts Payable** (Orders to Financial Settlement).

3. STEP-BY-STEP EXECUTION GUIDE

1 Material Request (Requisitioning)

Departmental users across Q1 0Analytics raise a Material Request in QBS when items or raw materials are required.

- Navigate to: Stock > Material Request > New.
- Define the **Purpose** (e.g., Purchase, Transfer, Issue).
- Add Item Codes, Required Quantities, Target Warehouse (e.g., Stores - S), and Required Date. Submit for approval.

Stock > Material Request > MAT-MR-2024-00009

Search or type a command (⌘ + K) Help

Sr	Item Code	Required By	Description	Quantity	Target Warehouse	UOM
1	12345-WHI-128GB	31-12-2024	iPhone 13-WHI-128GB	Unit 10	Stores - S	Unit
2	12345-BLA-128GB	31-12-2024	iPhone 13-BLA-128GB	Unit 5	Stores - S	Unit
3	12345-RED-256GB	31-12-2024	iPhone 13-RED-256GB	Unit 5	Stores - S	Unit

2 Auto Stock Replenishment & Re-Order Settings

QBS automates inventory replenishment by constantly comparing current warehouse stock against preset re-order thresholds.

- Access Stock > Item > Inventory Tab.
- Define **Re-order Level** and **Re-order Quantity** per warehouse location.
- In Stock Settings > Stock Planning, check "Raise Material Request When Stock Reaches Re-order Level" and enable auto-notifications.

Stock > Item > Axle Assembly

3 Request for Quotation (RFQ)

The procurement team compiles approved Material Requests and dispatches RFQs to prospective suppliers via QBS.

- Navigate to: Buying > Request for Quotation > New.
- Fetch items directly from existing Material Requests.
- Select vendors from the Supplier Master, check "Send Email", and dispatch portal links for direct quotation submission.

The screenshot shows the 'Request for Quotation' form for 'PUR-RFQ-2025-00004' in 'Draft' status. The form is divided into three main sections: Suppliers, Items, and Email Details.

Suppliers Table:

☐	No.	Supplier *	Contact	Email Id	Send Email	
☐	1	New Vision Optics	Nathan	supplier.user@newvision.com	☒	
☐	2	Radiant Solutions	Annie	annie.munsey@icloud.com	☒	

Items Table:

☐	No.	Item Code *	Required Date *	Quantity *	UOM *	Warehouse	
☐	1	4GB RAM	11-12-2024	30	Nos	Stores - S	
☐	2	512 SSD HD	11-12-2024	30	Nos	Stores - S	
☐	3	Camera module	11-12-2024	60	Nos	Stores - S	
☐	4	Display Assembly	11-12-2024	30	Nos	Stores - S

Preview Email

In your **Email Template**, you can use the following special variables:

- `{{ update_password_link }}`: A link where your supplier

4 Supplier Quotation Comparison

Once vendors submit bids, QBS aggregates the responses into a comparative analytical report for price negotiation.

- Open Buying > Supplier Quotation Comparison.
- Evaluate line-by-line item rates, UOMs, tax calculations, and delivery lead times across candidates.
- Select the optimal L1 bidder based on total commercial value and supplier reliability metrics.

For comparison, use >5, <10 or =324. For ranges, use 5:10 (for values between 5 & 10).

Execution Time: 0.067377 sec

5 Centralized Purchase Order (PO) Issuance

Upon final supplier selection, a binding Purchase Order is generated in QBS and transmitted to the vendor.

- Create PO directly from the approved Supplier Quotation: Buying > Purchase Order > New.
- Verify billing terms, delivery schedule, taxes, and item specs. Submit for workflow authorization.

Buying > Purchase Order > PUR-ORD-2024-00014

6 Goods Receipt & Quality Inspection (Purchase Receipt)

When goods arrive at the Q1 0Analytics warehouse, Stores personnel log a Purchase Receipt in QBS.

- Navigate to Stock > Purchase Receipt > New and fetch details directly from the referenced PO.
- Perform physical inspection; log accepted vs rejected quantities prior to stock inwarding.

Stock > Purchase Receipt > MAT-PRE-2024-00013

7 Purchase Invoice & Payment Settlement

Accounts Payable logs the vendor invoice against verified receipts, performing 3-way matching in QBS prior to releasing payment.

- Generate Purchase Invoice from the Goods Receipt. Verify PO price vs Invoice price.
- Execute Payment Entry or batch Payment Orders based on payment terms and aging reports.

8 Procurement Analytics & Reporting

Management reviews procurement performance and stock status using QBS analytical charts and tracking dashboards.

- Monitor Requested Items to Order and Receive to track pending vs fulfilled orders across items.
- Review Purchase Analysis and Payable Aging Reports for cash flow planning.

4. ROLES & RESPONSIBILITIES (RACI MATRIX)

P2P Step	Requisitioner	Purchase Manager	Stores / Quality	Accounts Payable
1. Material Request	R / A	I	C	I
2. RFQ & Quotation	I	R / A	I	C
3. Purchase Order	I	R / A	I	C (Approval)
4. Goods Receipt	I	I	R / A	I
5. Invoice & Payment	I	I	I	R / A

* R = Responsible, A = Accountable, C = Consulted, I = Informed
