

Standard Operating Procedure (SOP): HR Module 1

1. Quick Start Sequence (What to do first)

If you are setting up the HR module for the first time, follow this exact order:

1. **HR Settings:** Check and confirm your default system rules.
2. **Setup Masters:** Create Branch, Department, Designation, and Employee Grade.
3. **Holiday List:** Create the official holiday calendar for the year.
4. **Leave Types:** Set up leave categories (Casual Leave, Sick Leave, Paid Leave, etc.).
5. **Leave Allocations:** Assign leave balances/quotas to employees.
6. **Create Employee:** Add complete employee profiles into the system.
7. **Attendance Process:** Decide how attendance is logged (Biometric check-in, Manual, or Requests).
8. **Daily Work Summary:** Set up daily work reporting groups (if required).
9. **Start Operations:** Begin processing daily Leave Applications, Attendance, and Expense Claims.
10. **Monthly Reports:** Check Monthly Attendance Sheets and Leave Balances at month-end.

 **Quick Navigation:** Press **Ctrl + G** anywhere in the system and type the screen name (e.g., *Employee*, *Leave Application*) to open it instantly.

2. Your Role & Rights (HR Manager)

- **What You Can Do:**
 - Create and manage Branches, Departments, Designations, and Employees.
 - Review and **Approve/Reject** Leave Applications and Expense Claims.
 - Manage Employee Advances and daily Attendance records.
 - View and export all HR reports to Excel.
- **What You Cannot Do (Requires Admin Permission):**
 - Create or modify User login accounts/passwords.
 - Change core system permissions, workflows, or global settings.
 - Delete submitted documents (you must Cancel/Amend them instead).

3. Setting Up System Masters

- **Branch:** Go to **HR → Setup → Branch → New**. Enter the branch name (e.g., Mumbai HO / Pune), select Company, and click **Save**.
- **Department:** Go to **HR → Setup → Department → New**. Enter department name (e.g., Sales, HR, Accounts), select Company, and click **Save**.
- **Designation:** Go to **HR → Setup → Designation → New**. Enter the job title (e.g., Engineer, Manager) and click **Save**.
- **Employee Grade:** Go to **HR → Employee → Employee Grade → New**. Enter grade name (e.g., G1, M1) and click **Save**.

Standard Operating Procedure (SOP): HR Module 2

4. Leaves & Holiday Setup

1. **Holiday List:** Search **Holiday List** using **Ctrl + G** → Click **New**, Ex:set dates (01-01-2026 to 31-12-2026), add holiday dates with descriptions, and **Save**.
2. **Leave Types:** Search **Leave Type** → Click **New**. Name the leave type (e.g., Casual Leave), check Paid/Unpaid options, and **Save**.
3. **Leave Allocation:** Search **Leave Allocation** → Click **New**. Select Employee, Leave Type, date range, enter the allocated number of days (e.g., 12 CLs), and click **Submit**.

5. Creating Employee Accounts & Logins

1. **User Account:** Have the IT Admin create a User account with the employee's email address.
2. **Create Employee Profile:** Go to **HR → Employee → New**.
 - **Personal Details:** Full name, gender, date of birth, mobile number, email.
 - **Company Details:** Date of joining, Branch, Department, Designation, and Manager name (*Reports To*).
 - **Holiday List:** Link the employee's assigned location holiday list.
 - **User ID:** Link the created user email under the *User ID* field (enables self-service login).
 - Click **Save** and **Submit**.

6. Daily HR Operations

Attendance Management:

- **Employee Checkin:** Raw punch-in/out logs synced from biometric devices.
- **Attendance:** The official daily status (Present, Absent, Half Day, On Leave).
- **Attendance Request:** Used by employees to fix missed punches or request WFH approvals.

Leave Approvals:

- Employees submit a **Leave Application**.
- Go to Leave Applications → Filter by **Status = Pending Approval**.
- Check the employee's leave balance, then click **Approve** or **Reject**.

Expenses & Advances:

- **Expense Claim:** Verify attached receipts/bills, check policy compliance, and click **Approve**.
- **Employee Advance:** Create advance entries for employees and track pending balances via reports.

Standard Operating Procedure (SOP): HR Module 3

7. Key Reports to Use

- **Monthly Attendance Sheet:** Export at the end of every month for payroll processing.
- **Employee Leave Balance:** Track allocated, used, and remaining leaves per employee.
- **Employee Analytics:** Overview of headcount grouped by department, branch, or grade.
- **Employee Advance Summary:** Track open advance balances and settlements.

8. Common Issues & Solutions

- **"No Leave Allocation Found" Error:** The employee was not assigned a Leave Allocation for that leave type/year. Create and submit a Leave Allocation first.
- **Approvals Not Reaching You:** Ensure the employee's profile has the correct manager listed under the **Reports To** field.
- **Attendance Mismatch:** Check raw **Employee Checkins** to verify punch times before correcting the record via Attendance Request.

9. Best Operational Practices

- Setup new **Holiday Lists** and **Leave Allocations** at the beginning of every calendar/financial year.
- Ensure every employee profile has a Branch, Department, Designation, and Manager (*Reports To*) assigned.
- Always check attached bills/receipts before approving **Expense Claims**.
